Sexual Assault Program Description

Mujeres Latinas en Acción is a certified sexual assault training agency. Mujeres' Sexual Assault program is designed to assist sexual assault survivors with the emotional, medical & legal aspects of their cases. The program engages volunteers to support survivors by providing crisis intervention and medical advocacy services. Volunteers are on pre-scheduled rotations and respond to crisis calls at area hospitals. A 40-hour rape crisis training is required and certifies volunteers as sexual assault advocates in Illinois. Training participants will gain a holistic understanding of the social, psychological, medical, and legal aspects of sexual violence.

24-hour Chicago Rape Crisis Hotline:
(888) 293-2080
